Our 2022 Theme of Spiritual Renewal and Our Collective Purpose may help us make sense of the transitional times we are living in now – between the Ages of Pisces and Aquarius. Ancient myth and modern science tell us these 2000 year long astrological ages coincide with global and social turmoil. As we traverse the Age of Aquarius threshold, this is proving to be true. In our 2022 theme we explore the unique talents and skills of each Zodiac sign and how each sign might contribute to humanity's collective purpose. In 2022 we suggest tuning into the inspiration of the magical Jupiter/Neptune conjunction in Pisces.
